

## BOHO BEAD PENDANT PACK

Your Boho bead pack contains 3 x diamond shaped beads and 5 x ball shaped beads.

You can configure these beads in any way your heart desires, the only thing we ask is that ideally the bottom bead be a diamond.

The reason for this is that one of the diamond beads in your pack has had the bottom drilled out a little wider so the bead will completely cover the cord grip on the top of the lamp holder and give your pendant a sleek look – see photo 1.

This bead has a red sticker on it so you can identify it easily.

If you do choose to have a ball bead on the bottom, it will sit a little higher off the lamp holder where the cord grip is – see photo 2.
