FESTOON STRING LIGHTS WITH 11W VE BULBS

Create the perfect backyard or deck setting!
These Festoon strings are manufactured to NZ/Australian standards - These have High Risk Electrical Approval.

They are commercial grade and come ready with 28 x 11W Vintage Edison filament bulbs. Suitable Indoor or Outdoor. These can be left outdoors permanently.

All Festoon Strings and Lamps/Bulbs come with a 2 year full replacement warranty.

Specifications:

- 24 x E27 sockets (VE bulbs provided)
Please note - The sockets are spaced 60cm apart and hang down off the string, making them look very vintage. Approx 12cm from string to the top of the socket. Vintage Socket is 5 cm long x 3 cm wide.
- Bulb Size: 45mm x 85mm
- 16 meters: 14.2 meters of cable with light sockets and 2 meters to the plug.

Voltage: 240V NZ plug IP44GC-E27-3

DIMMABLE (with a universal dimmer switch that dims to zero)

If you are stringing them across a reasonable expanse i.e. over 4 meters it is advisable to use wire to secure them, or a festoon pole.

They come ready with weather proof connectors, you can join x 6 sets together. The total wattage allowable on 1 x power point is 1100 watts.
