Toru

Toru

Introducing Toru, a stunning pendant light that combines the elegance of modern design with the natural beauty of our award-winning feature light Navicula. The light's unique three-sided shape is our third pendant light inspired by microscopic diatoms, and triangular shell patterns and is named after the Te Reo Māori word for "three".

Toru comes in three sizes small, medium and large. Versatile enough to fit in any space, from the living room to the bedroom, and it can be easily installed on any standard E26/E27 lamp/bulb. The plywood finish can be all natural bamboo or painted creating a wide range of colour options.

Story

Toru is inspired by microscopic diatoms which live in water and produce 50% of the air we breathe. Based on our award-winning Navicula feature light, it is crafted from strong, multi-layered bamboo plywood creating a natural skeletal skin. The light is designed to have functional downward lighting as it can be installed either horizontally or vertically. Toru is ideal for over a dining table, a lounge, a foyer, in a reception or as a corner statement piece.

*Black comes with black cordset and fasteners. All others come with white cordset and clear fasteners. Custom cordset lengths available on request.

Features

Shipped Kitset

Seed System kitset lightshades are on average 1/30th of the volume of the assembled light. This aims to help minimize the effects of shipping and to reduce the design's environmental footprint.

Compliance

CE

AS/NZS

(Declarations of conformity available on request).

Care Instructions

All wooden lights are intended for use in dry interior conditions only and can be cleaned with a soft cloth dampened slightly in warm water when the light is switched off. Do not use detergents.

Light sizes

David Trubridge kitset lightshades come in various sizes, making it easy to find the right size to any interior space whether it's small or large.

EPD Certified

An EPD is a standardised and verified way of quantifying the environmental impacts of a product, based on a consistent set of rules that have been developed through a stakeholder consultation process.

Warranty

This light is warranted for three years from date of purchase for failure of parts.

Finishes

We offer 12 stock finish options for Toru. We use low VOC acrylic paint and it is most commonly used on the interior of the light. We can also produce lights in other finishes or colours by special order. All lights are made from sustainably grown bamboo plywood sourced from an FSC accredited factory.

Structure

Toru lights are made from bamboo plywood which is a hard wearing high quality material. It is also highly sustainable due to its rapid growth. The bamboo we use is a secondary product from the food industry.

Diagrams

Repeat steps marked 1 and 2 until happy with the position of the light
